

Hello!

My name is **Hugo Söderholm**. This autumn, I'm beginning my master's studies in Computer Engineering here at Åbo Akademi in Turku. I originally come from Vaasa, a slightly more northern city in Finland. In life, I have a wide range of interests. Some of my favorites include bouldering, spicy food, spending time in nature or with friends and everything related to computers. Although I have yet to go on an exchange myself, I will be trying my best to make your stay here in Finland as comfortable as possible. If any questions arise, please don't hesitate to contact me at hugo.soderholm@abo.fi

See you soon!
